

## Important Information

This term in Geography, Year 1 will be focussing on seas and beaches in order to explore the physical features around them. We will think about how the geography of the beach may affect the way people live there.

We will be looking in detail at Morecambe beach and the features here and comparing them with a beach in a different country.

We will also revisit being able to name the countries and capital cities of the United Kingdom and add the names of the surrounding seas to our maps.

Seas and Coasts

Year 1 Spring Term

## Things to find out / do

Have you ever visited a beach? Can you draw a picture of it and write a list of things you could see and things you could do there?

Practise finding and labelling the seas of the United Kingdom.

Explore on Google maps and look at beaches around the world using Street View.

## **Key words**

Key words		
Continent	Beach	Cliff
Coast	Forest	Hill
Mountain	Sea	Ocean
River	Soil	Valley
Vegetation	Season	Weather
